*No Transportation will be provided.*

*Breakfast, Lunch, and Snacks will be provided.*

*Our goal is to increase our students desire to learn, improve their grades, and help them improve their social skills by providing a safe and healthy learning environment. It has been our philosophy that our summer program must enrich the lives of our students through curricular related activities, social emotional learning, and opportunities for educational and social interaction, and respect for rules and procedures. For the summer, we will be going on field trips to the Bronx Zoo, Museum of Natural History, the Liberty Science Center thus furthering our students desire to learn and broaden their horizons.*
