

# **Game Development I**

## **Course Description**

This course provides an introduction to 2D video game history, design, theory, development, and programming. Emphasis is placed on understanding the history of video games and analyzing industry roles, 2D game genres, 2D gameplay, 2D art design, playability, storytelling, rule dynamics and what makes a quality game. In this course, students will be responsible for every aspect of creating a 2D game. This will entail preplanning, 2D art creation, 2D animation creation, programming, creating music and sound effects, creating rules and balance for the game, and testing the game for bugs and playability.

# Game Development I

## Pacing Guide

Unit	Topic	Suggested Timing
Unit 1	Video Game History & Theory, and Understanding and Creating 2D Graphics	approx. 7 weeks
Unit 2	2D Game Graphics	approx. 9 weeks
Unit 3	Concept and Preproduction Stages of Creating a 2D Game	approx. 10 weeks
Unit 4	Production, Postproduction, and Distribution Stages of Creating a 2D Game	approx. 10 weeks

## Educational Technology Standards

8.1.12.A.2, 8.1.12.A.3, 8.1.12.B.2, 8.1.12.D.1, 8.1.12.F.1

### ➤ Technology Operations and Concepts

- Collaborate in online courses, learning communities, social networks or virtual worlds to discuss a resolution to a problem or issue.  
**Example of use within unit:** Use online forums and social media to analyze the social affect videogames have had on the world.
- Produce and edit a multi-page digital document for a commercial or professional audience and present it to peers and/or professionals in that related area for review.  
**Example of use within unit:** Develop an original game design document for a 2D Game and present document to peers for review.

### ➤ Creativity and Innovation

- Apply previous content knowledge by creating and piloting a digital learning game or tutorial.  
**Example of use within unit:** Use online tutorials to fill out a Game Design Document for an original game.

### ➤ Digital Citizenship

- Demonstrate appropriate application of copyright, fair use and/or Creative Commons to an original work.  
**Example of use within unit:** Use copyright free elements from online communities as elements in a 2D game document.

### ➤ Critical Thinking, Problem Solving, Decision Making

- Evaluate the strengths and limitations of emerging technologies and their impact on educational, career, personal and or social needs.  
**Example of use within unit:** Compare and contrast old game technologies and new and their impact on young minds and life styles.

## Career Ready Practices

*Career Ready Practices describe the career-ready skills that all educators in all content areas should seek to develop in their students. They are practices that have been linked to increase college, career, and life success. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.*

### **CRP1. Act as a responsible and contributing citizen and employee**

Career-ready individuals understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.

- **Example of use within unit:** Assume the role of a game designer and adhere to copyright rules while developing an original game.

### **CRP2. Apply appropriate academic and technical skills.**

Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.

- **Example of use within unit:** Use word processing software and online search tools and software to create lesson on the history of video games.

### **CRP4. Communicate clearly and effectively and with reason.**

Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others' time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.

## Career Ready Practices

- **Example of use within unit:** Assume the role of teacher and turnkey information about job roles in the video game industry to peers.

### **CRP5. Consider the environmental, social and economic impacts of decisions.**

Career-ready individuals understand the interrelated nature of their actions and regularly make decisions that positively impact and/or mitigate negative impact on other people, organization, and the environment. They are aware of and utilize new technologies, understandings, procedures, materials, and regulations affecting the nature of their work as it relates to the impact on the social condition, the environment and the profitability of the organization.

- **Example of use within unit:** Examine the social and economic impact of video games on America.

### **CRP6. Demonstrate creativity and innovation.**

Career-ready individuals regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.

- **Example of use within unit:** Develop the original mechanics, physics and user interface for an original 2D game.

### **CRP7. Employ valid and reliable research strategies.**

Career-ready individuals are discerning in accepting and using new information to make decisions, change practices or inform strategies. They use reliable research process to search for new information. They evaluate the validity of sources when considering the use and adoption of external information or practices in their workplace situation.

- **Example of use within unit:** Research the evolution of video games socially, technically, and economical.

### **CRP11. Use technology to enhance productivity.**

Career-ready individuals find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology

## Career Ready Practices

applications. They understand the inherent risks-personal and organizational-of technology applications, and they take actions to prevent or mitigate these risks.

- **Example of use within unit:** Student groups will share projects digitally and flow chart software to organize user interface and game flow.

### **CRP12. Work productively in teams while using cultural global competence.**

Career-ready individuals positively contribute to every team, whether formal or informal. They apply an awareness of cultural difference to avoid barriers to productive and positive interaction. They find ways to increase the engagement and contribution of all team members. They plan and facilitate effective team meetings.

- **Example of use within unit:** Student teams work together to create a lesson in video game history to present to the class as the play teacher for a day.

## Differentiated Instruction

### Strategies to Accommodate Students Based on Individual Needs

<u>Time/General</u>	<u>Processing</u>	<u>Comprehension</u>	<u>Recall</u>
<ul style="list-style-type: none"> <li>Extra time for assigned tasks</li> <li>Adjust length of assignment</li> <li>Timeline with due dates for reports and projects</li> <li>Communication system between home and school</li> <li>Provide lecture notes/assignments, and tutorials outline</li> </ul>	<ul style="list-style-type: none"> <li>Extra Response time</li> <li>Have students verbalize steps</li> <li>Repeat, clarify or reword directions</li> <li>Mini-breaks between tasks</li> <li>Provide a warning for transitions</li> <li>Video lessons online</li> </ul>	<ul style="list-style-type: none"> <li>Precise step-by-step directions</li> <li>Short manageable tasks</li> <li>Brief and concrete directions</li> <li>Provide immediate feedback</li> <li>Small group instruction</li> <li>Emphasize multi-sensory learning</li> </ul>	<ul style="list-style-type: none"> <li>Teacher-made checklist</li> <li>Use visual graphic organizers</li> <li>Reference resources to promote independence</li> <li>Visual and verbal reminders</li> <li>Graphic organizers</li> </ul>
<u>Assistive Technology</u>	<u>Tests/Quizzes/Grading</u>	<u>Behavior/Attention</u>	<u>Organization</u>
<ul style="list-style-type: none"> <li>Computer/whiteboard</li> <li>Video lesson</li> <li>Spell-checker</li> <li>Text speech software</li> </ul>	<ul style="list-style-type: none"> <li>Adjusted rubrics for projects</li> <li>Study guides</li> <li>Shortened tests</li> <li>Read directions aloud</li> </ul>	<ul style="list-style-type: none"> <li>Consistent daily structured routine</li> <li>Simple and clear classroom rules</li> <li>Frequent feedback</li> </ul>	<ul style="list-style-type: none"> <li>Individual daily planner</li> <li>Display a written agenda</li> <li>Note-taking assistance</li> <li>Color code materials</li> </ul>

## **Differentiated Instruction**

### **Strategies to Accommodate Students Based on Content-Specific Needs**

- Extra time for assigned tasks
- Adjust length of assignment
- Timeline with due dates for reports and projects
- Communication system between home and school
- Small group instruction
- Assistive Technology
- Translation Software

## Enrichment

### **Strategies Used to Accommodate Based on Students Individual Needs:**

- Adaption of Material and Requirements
- Evaluate Vocabulary
- Elevated Text Complexity
- Elevated Projects Rubrics
- Independent Written and Video Online Tutorials
- Projects completed individual or with Partners
- Self Selection of Research
- Tiered/Multilevel Activities
- Online Learning Communities
- Individual Response Board
- Independent Book Studies
- Open-ended activities
- Community/Subject expert mentorships

## Assessments

### Suggested Formative/Summative Classroom Assessments

- Storyboards
- Teacher-created Unit Assessments, Topic Assessments, Quizzes
- Teacher-created DBQs, Essays, Short Answer
- Accountable Talk, Debate, Oral Report, Role Playing, Think Pair, and Share
- Projects, Portfolio, Presentations, Prezi, Gallery Walks
- Homework
- Concept Mapping
- Primary and Secondary Source analysis
- Photo, Video, Political Cartoon, Radio, Game Analysis
- Create an Original Song, Animation, Board Game
- Game salad Video Tutorials
- Khan Academy intro to coding

## Interdisciplinary Connections

### English Language Arts

- Close reading of professional video game related content. (NJSLSA.R1)
- Write professional level game review. (NJSLSA.W2)

### Social Studies

- Research the history of a video game industry. (6.1.12)
- Research the social impact and economic impact of the video game industry. (6.3.12)

### World Language

- Translate video game industry-content (7.1.ILA)
- Create a translated index of video game industry vocabulary (7.1.ILA)

### Math

- Calculate how a game makes money within the commercial industry. (N.Q.A.1)
- Use proportions to understand graphic scaling. (N.Q.A.2)

### Fine & Performing Arts

- Compare graphics (landscapes, menus, characters etc.) used in games. (1.2.12)
- Critique design 2D images that appear 3D. (1.4.12)

### Science

- Research latest developments in the video industry technology (HS-ETS1-4)
- Investigate applicable-careers in STEM fields within the video game industry. (9.2.12)

## New Jersey Student Learning Standards

### 9.1 Personal Financial Literacy

- 9.1.12.E.4: Evaluate how media, bias, purpose, and validity affect the prioritization of consumer decisions and spending.

### 9.3– Career and Technical Education

#### CAREER CLUSTER: ARTS, A/V TECHNOLOGY & COMMUNICATIONS (AR)

- 9.3.12.AR.1: Analyze the interdependence of the technical and artistic elements of various careers within the Arts, A/V Technology & Communications Career Cluster.
- 9.3.12.AR.3: Analyze the lifestyle implications and physical demands required in the arts, audio/visual technology and communications workplace.
- 9.3.12.AR.4: Analyze the legal and ethical responsibilities required in the arts, audio/visual technology and communications workplace.
- 9.3.12.AR.5: Describe the career opportunities and means to achieve those opportunities in each of the Arts, A/V Technology & Communications Career Pathways.
- 9.3.12.AR.6: Evaluate technological advancements and tools that are essential to occupations within the Arts, A/V Technology & Communications Career Cluster.

#### PATHWAY: VISUAL ARTS (AR-VIS)

- 9.3.12.AR-VIS.3: Analyze and create two and three-dimensional visual art forms using various media.

#### INFORMATION TECHNOLOGY CAREER CLUSTER

- 9.3.IT.6: Describe trends in emerging and evolving computer technologies and their influence on IT practices.

**PATHWAY: INFORMATION SUPPORT & SERVICES (IT-SUP)**

- 9.3.IT-SUP.3: Apply appropriate troubleshooting techniques in resolving computer hardware, software and configuration problems.

**CAREER CLUSTER : SCIENCE, TECHNOLOGY, ENGINEERING & MATHEMATICS (ST)**

- 9.3.ST.5: Demonstrate an understanding of the breadth of career opportunities and means to those opportunities in each of the Science, Technology, Engineering & Mathematics Career Pathways.
- 9.3.ST.6: Demonstrate technical skills needed in a chosen STEM field.

**PATHWAY: ENGINEERING & TECHNOLOGY CAREER PATHWAY (ST-ET)**

- 9.3.ST-ET.3: Apply processes and concepts for the use of technological tools in STEM.
- 9.3.ST-ET.4: Apply the elements of the design process.

## Common Career Technical Core (CCTC)

### Arts, A/V Technology & Communications Career Cluster (AR)

AR 1– Analyze the interdependence of the technical and artistic elements of various careers within the Arts, A/V Technology & Communications Career Cluster.

- AR 01.1 – State how various Career Pathways within the cluster work together to generate productions, media and other activities.

AR 03 – Analyze the lifestyle implications and physical demands required in the arts, audio/visual technology and communications workplace.

- AR 03.3 – 3. Analyze ethical conduct that provides proper credit to those whose ideas and content have been used.

AR 05 – Describe the career opportunities and means to achieve those opportunities in each of the Arts, A/V Technology & Communications Career Pathways.

- AR 05.1 – Locate career opportunities that appeal to personal career goals.
- AR 05.2 – Match personal interests and aptitudes to selected careers.
- AR 05.4 – Identify pathways with common knowledge and skills that provide a worker with the potential for mobility.

AR 06 - Evaluate technological advancements and tools that are essential to occupations within the Arts, A/V Technology & Communications Career Cluster.

- AR 06.1 – Research the impact of potential new technological advancements related to this cluster in the future.
- AR 06.2 – Analyze the technological systems that are apparent within the various pathways in this cluster.

AR VIS 1 - Analyze how the application of visual arts elements and principles of design communicate and express ideas.

- AR VIS 01.5 – Analyze the development of tools and technologies employed in the visual arts.

AR VIS 3 - Analyze and create two- and three-dimensional art forms using various media.

- AR VIS 03.1 – Analyze art elements and principles of two-dimensional works of visual art in various media, including drawing, printmaking and computer software.
- AR VIS 03.3 – Analyze multimedia applications of software/hardware for the purposes of visual communications.

## **Information Technology Career Cluster (IT)**

IT 07 - Perform standard computer backup and restore procedures to protect IT information.

- IT 07.1 – Explain the need for regular backup procedures.
- IT 07.2 – Configure, perform and maintain backup procedures.

IT WD 04 - Demonstrate the effective use of tools for digital communication production, development and project management.

- IT WD 04.1 - Select and use appropriate software tools.

IT WD 06 - Design, create, and publish a digital communication product based on customer needs.

- IT WD 06.4 - 4. Acquire and produce content for a digital communication product.

## Common Core State Standards (CCSS)

### CCSS - English-Language Arts

#### Comprehension and Collaboration:

- CCSS.ELA-LITERACY. SL.12.1a. Come to discussions prepared, having read material under study; explicitly draw on that preparation by referring to evidence from texts on the topic or issue to stimulate a thoughtful, well- reasoned exchange of ideas

#### Craft and Structure:

- CCSS.ELA-LITERACY. RI.12.4 Determine the meaning of words and phrases as they are used in a text, including figurative, connotative, and technical meanings.

#### Research to Build and Present Knowledge:

- CCSS.ELA-LITERACY. W.12.9b. Draw evidence from informational texts to support analysis, reflection, and research; apply *grade 12 Reading standards* to literary nonfiction

## Common Core State Standards (CCSS)

### CCSS - Mathematics

#### Extending to Three Dimensions:

- CCSS.MATH.CONTENT.HSS.G.GMD.4 Identify the shape of a two-dimensional cross-section of a three-dimensional figure and identify three-dimensional objects created by the rotation of two-dimensional objects.
- CCSS.MATH.CONTENT.HSS.G.MG.1 Use geometric shapes, their measures, and their properties to describe objects
- CCSS.MATH.CONTENT.HSS.G.MG.14 Solve design problems using geometric methods.

#### Congruence, Proof, and Construction:

- CCSS.MATH.CONTENT.HSS.G.CO.2, G.CO.3, G.CO.4, G.CO.5 Develop and perform rigid transformations that include reflections, rotations, translations and dilations using geometric software, graph paper, tracing paper, and geometric tools and compare them to non-rigid transformations.

### CCSS – Social Studies

- CCSS.MATH.CONTENT.WHST.9-10.8 Gather relevant information from multiple authoritative print and digital sources, using advanced searches effectively; assess the usefulness of each source in answering the research question; integrate information into the text selectively to maintain the flow of ideas, avoiding plagiarism and following a standard format for citation.

<p><b>Course:</b> Game Development I</p> <p><b>Unit:</b> 1 – History of Video Games, Job Roles in the Video Game Industry</p> <p><b>Grade Level:</b> 9-12</p>	<p><b>Unit Overview:</b> This unit will cover the history of video games with a focus on 2D videos games and Students will learn how video games have evolved over the years and understand how they have influenced society. They will also be introduced to how a video game is developed and the roles of the programmer, designer, artist, and writer.</p>
<p><b>New Jersey Student Learning Standards (NJSLS):</b> 9.1.12.E.4, 9.3.12.AR.1, 9.3.12.AR.3, 9.3.12.AR.4, 9.3.12.AR.5, 9.3.12.AR.6, 9.3.12.AR-VIS.3, 9.3.IT.6, 9.3.IT-SUP.3, 9.3.IT-PRG.4, 9.3.IT-PRG.5, 9.3.IT-PRG.6, 9.3.IT-PRG.7, 9.3.IT-PRG.10, 9.3.ST.5, 9.3.ST.6, 9.3.ST-ET.3, 9.3.ST-ET.4</p>

accelerometer  
analog control  
A.I.  
arcade game  
backward compatible  
beta  
bundling  
C.G.  
Console  
cut-scene  
demo  
downwardly compatible  
edutainment  
end user  
Ethical

E.S.R.B.  
Frames  
Frame Rate  
gamer  
Genre  
G.U.I.  
M.M.O.G.  
M.M.O.R.P.G.  
N.P.C.  
RTS  
sandbox  
simulation  
spoiler  
Sprite  
Stealth  
third-person

## Suggested Unit Projects

*Choose At Least One*

In pairs, complete a game design document for a game that already exist.

Student groups research an important moment in video game history and teach the class about that moment and its significance.

## Suggested Structured Learning Experiences

Museum of Play  
 1 Manhattan Square  
 Rochester, NY 14607  
<http://www.museumofplay.org/about/icheg>

Nintendo NY  
 10 Rockefeller Plaza  
 New York, New York 10020  
<http://nintendonyc.com/faq/>

Cooper Hewitt  
 2 East 91<sup>st</sup> Street  
 New York, New York 10128  
<http://www.cooperhewitt.org/visit/getting-here/>
