Supplemental ESL II

Folklore & Literacy Traditions
Reading: Fiction & Nonfiction Writing: Opinion
Grades 2/3:

Unit 3
(2.5-3.4)
Course Description
(Workshop Model)

Supplemental English as a Second Language consists of developing reading, writing, speaking, and listening skills. During Supplemental ESL instruction, students will learn to use reading and writing strategies to help them become effective English language readers and writers. ESL teachers will use the appropriate leveled language objectives to build lessons for ELLs, which reflects what is covered in the general education program. In this way, all teachers work on the same Student Learning Objectives connected to the Common Core standards. The design of language objectives are based on the alignment of the World-Class Instructional Design Assessment (WIDA) Consortium’s English Language Development (ELD) standards with the Common Core State Standards (CCSS). WIDA’s ELD standards advance academic language development across content areas, ultimately leading to academic achievement for English learners. As English learners are progressing through the six developmental linguistic stages, this course will assist all teachers working with English learners to appropriately identify the language needed to meet the requirements of the content standard. At the same time, the language objectives recognize the cognitive demand required to complete educational tasks. The teachers will instruct students using the workshop model philosophy with the use of the “I DO, WE DO, YOU DO” method of instruction. Other skills such as grammar, vocabulary, listening, and speaking are infused in the exploration of effective reading and writing. The Common Core State Standards are designed to provide a clear understanding of what students are expected to learn, providing teachers and parents the knowledge of what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the information and skills that our young learners need for success in college and careers. It is our goal to establish a community of learners to become productive citizens in society striving towards pursuing their life-long goals. Through an enriching and rigorous education and with on-going support, our students will be fully prepared for the future to compete successfully in the global economy.

### Technology Operations and Concepts
- Identify the basic features of a computer and explain how to use them effectively.
- Use technology terms in daily practice.
- Discuss the common uses of computer applications and hardware and identify their advantages and disadvantages.
- Create a document with text using a word processing program.

### Creativity and Innovation
- Illustrate and communicate original ideas and stories using digital tools and media-rich resources.

### Communication and Collaboration
- Engage in a variety of developmentally appropriate learning activities with students in other classes, schools, or countries using electronic tools.

### Digital Citizenship
- Model legal and ethical behaviors when using both print and non-print information by citing resources.

### Research and Information Literacy
- Use digital tools and online resources to explore a problem or issue affecting children, and discuss possible solutions.

### Critical Thinking, Problem Solving, and Decision-Making
- Use mapping tools to plan and choose alternate routes to and from various locations.

Career Ready Practices describe the career-ready skills that all educators in all content areas should seek to develop in their students. They are practices that have been linked to increase college, career, and life success. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

- **CRP1.** Act as a responsible and contributing citizen and employee.
- **CRP2.** Apply appropriate academic and technical skills.
- **CRP3.** Attend to personal health and financial well-being.
- **CRP4.** Communicate clearly and effectively and with reason.
- **CRP5.** Consider the environmental, social and economic impacts of decisions.
- **CRP6.** Demonstrate creativity and innovation.
- **CRP7.** Employ valid and reliable research strategies.
- **CRP8.** Utilize critical thinking to make sense of problems and persevere in solving them.
- **CRP9.** Model integrity, ethical leadership and effective management.
- **CRP10.** Plan education and career paths aligned to personal goals.
- **CRP11.** Use technology to enhance productivity.
- **CRP12.** Work productively in teams while using cultural global competence.

# Enrichment

**Seeking to build each learner’s capacity to do the following:**

- Show a high degree of intellectual, creative and/or artistic ability and demonstrate this ability in multiple ways.
- Pose questions and exhibit sincere curiosity about principles and how things work.
- The ability to grasp concepts and make real world and cross-curricular connections.
- Generate theories and hypotheses and pursue methods of inquiry.
- Produce products that express insight, creativity, and excellence.
- Possess exceptional leadership skills.
- Evaluate vocabulary
- Elevate Text Complexity
- Inquiry based assignments and projects
- Independent student options
- Tiered/Multi-level activities

**Guided Reading Program**

**GUIDED READING: Nonfiction**

Guided reading is an instructional approach that involves a teacher working with a small group of students who demonstrate similar reading behaviors and can all read similar levels of texts.

**Student in Grades 2 and 3 should work towards displaying the following reading behaviors by the end of the school year:**

- Uses multiple sources of information to figure out words rapidly while focusing on meaning
- Flexibly applies word-solving strategies to more-complex, multisyllabic word
- Demonstrates facility in interpreting text while reading orally, with fluency and phrasing
- Reads orally with high accuracy in most instances, not stopping to self-correct errors in the interest of fluency and phrasing
- Reads silently, except during assessment or to demonstrate text interpretation
- After reading longer sections of text, predicts outcomes, problem resolutions, and character changes
- Remembers details and sustains attention to meaning through a longer text
- Demonstrates understanding and facility at interpretation after silent reading
- Makes connections between the text read and other books
- Goes beyond the text to make more sophisticated interpretations
Guided Reading Program

Running Records

A running record is a tool used to assess students’ reading behaviors and comprehension. A benchmark book and a running record form, with text from the book, are used for assessment. Analyzing students’ performance will help teachers identify students’ reading levels, check their fluency, find weaknesses in comprehension and plan effective guided reading instruction.

Notes to Teacher:

- Benchmark books, identified in the guided reading program, are to be utilized for assessment purposes only.
- Running records will be administered to students as part of the ESL Unit assessments.

*School based resources can be used in addition to the above required resources, but cannot replace the resources in the unit.
