

SUPPLEMENTAL ESL III

Unit 1

Course Description *(Workshop Model)*

Supplemental English as a Second Language consists of developing reading, writing, speaking, and listening skills. ESL teachers will use the appropriate leveled language objectives to build lessons for ELLs, which reflects what is covered in the general education program. In this way, all teachers work on the same New Jersey Student Learning Standards. The design of language objectives are based on the alignment of the World-Class Instructional Design Assessment (WIDA) Consortium’s English Language Development (ELD) standards with the New Jersey Student Learning Standards (NJSLS). WIDA’s ELD standards advance academic language development across content areas, ultimately leading to academic achievement for English learners. As English learners are progressing through the six developmental linguistic stages, this course will assist all teachers working with English learners to appropriately identify the language needed to meet the requirements of the content standard. At the same time, the language objectives recognize the cognitive demand required to complete educational tasks. The teachers will instruct students using the workshop model philosophy with the use of the “I DO, WE DO, YOU DO” method of instruction. Other skills such as grammar, vocabulary, listening, and speaking are infused in the exploration of effective reading and writing. The New Jersey Student Learning Standards are designed to provide a clear understanding of what students are expected to learn, providing teachers and parents the knowledge of what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the information and skills that our young learners need for success in college and careers. It is our goal to establish a community of learners to become productive citizens in society striving towards pursuing their life-long goals. Through an enriching and rigorous education and with on-going support, our students will be fully prepared for the future to compete successfully in the global economy.

Using the texts discussed in class, write an essay in which you explain the positions that authors have, how the authors present and evaluate the positions and what conclusions the authors make regarding differences.

**Project 2 (Suggested)
Literary Analysis Essay**

After you've finished reading, please write an essay in which you analyze the development of a theme over the course of the text, including how it emerges and is shaped and refined by specific details. Cite strong and thorough evidence from across the text to support your analysis.
