Dance Curriculum

Grade: 10th Grade

Unit 4: Dance History
Course Description

Dance History II

Students will deeper explore the creative process using contemporary and historical references to compare and contrast the evolution of the choreographic process in order to develop their artistic voice and mind body connection.
## Pacing Chart – Unit 1: Dance History II

### Educational Technology Standards

- **Technology Operations and Concepts**
  - Create a personal digital portfolio which reflects personal and academic interests, achievements, and career aspirations by using a variety of digital tools and resources.

- **Creativity and Innovation**
  - Apply previous content knowledge by creating and piloting a digital learning game or tutorial.

- **Communication and Collaboration**
  - Develop an innovative solution to a real world problem or issue in collaboration with peers and experts, and present ideas for feedback through social media or in an online community.

- **Digital Citizenship**
  - Demonstrate appropriate application of copyright, fair use and/or Creative Commons to an original work.

- **Research and Information Literacy**
  - Produce a position statement about a real world problem by developing a systematic plan of investigation with peers and experts synthesizing information from multiple sources.

- **Critical Thinking, Problem Solving, Decision Making**
  - Evaluate the strengths and limitations of emerging technologies and their impact on educational, career, personal and or social needs.
Career Ready Practices

Career Ready Practices describe the career-ready skills that all educators in all content areas should seek to develop in their students. They are practices that have been linked to increase college, career, and life success. Career Ready Practices should be taught and reinforced in all career exploration and preparation programs with increasingly higher levels of complexity and expectation as a student advances through a program of study.

CRP1. Act as a responsible and contributing citizen and employee
Career-ready individuals understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.

CRP2. Apply appropriate academic and technical skills.
Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation.

CRP3. Attend to personal health and financial well-being.
Career-ready individuals understand the relationship between personal health, workplace performance and personal well-being; they act on that understanding to regularly practice healthy diet, exercise and mental health activities. Career-ready individuals also take regular action to contribute to their personal financial well-being, understanding that personal financial security provides the peace of mind required to contribute more fully to their own career success.

CRP4. Communicate clearly and effectively and with reason.
Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others’ time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.

CRP5. Consider the environmental, social and economic impacts of decisions.
Career-ready individuals understand the interrelated nature of their actions and regularly make decisions that positively impact and/or mitigate negative impact on other people, organization, and the environment. They are aware of and utilize new technologies, understandings, proce-
**Career Ready Practices**

dates, materials, and regulations affecting the nature of their work as it relates to the impact on the social condition, the environment and the profitability of the organization.

**CRP6. Demonstrate creativity and innovation.**
Career-ready individuals regularly think of ideas that solve problems in new and different ways, and they contribute those ideas in a useful and productive manner to improve their organization. They can consider unconventional ideas and suggestions as solutions to issues, tasks or problems, and they discern which ideas and suggestions will add greatest value. They seek new methods, practices, and ideas from a variety of sources and seek to apply those ideas to their own workplace. They take action on their ideas and understand how to bring innovation to an organization.

**CRP7. Employ valid and reliable research strategies.**
Career-ready individuals are discerning in accepting and using new information to make decisions, change practices or inform strategies. They use reliable research process to search for new information. They evaluate the validity of sources when considering the use and adoption of external information or practices in their workplace situation.

**CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.**
Career-ready individuals readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem; they thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.

**CRP9. Model integrity, ethical leadership and effective management.**
Career-ready individuals consistently act in ways that align personal and community-held ideals and principles while employing strategies to positively influence others in the workplace. They have a clear understanding of integrity and act on this understanding in every decision. They use a variety of means to positively impact the directions and actions of a team or organization, and they apply insights into human behavior to change others’ action, attitudes and/or beliefs. They recognize the near-term and long-term effects that management’s actions and attitudes can have on productivity, morals and organizational culture.

**CRP10. Plan education and career paths aligned to personal goals.**
Career-ready individuals take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and the time, effort, experience and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience.
They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.

**CRP11. Use technology to enhance productivity.**
Career-ready individuals find and maximize the productive value of existing and new technology to accomplish workplace tasks and solve workplace problems. They are flexible and adaptive in acquiring new technology. They are proficient with ubiquitous technology applications. They understand the inherent risks-personal and organizational-of technology applications, and they take actions to prevent or mitigate these risks.

**CRP12. Work productively in teams while using cultural global competence.**
Career-ready individuals positively contribute to every team, whether formal or informal. They apply an awareness of cultural difference to avoid barriers to productive and positive interaction. They find ways to increase the engagement and contribution of all team members. They plan and facilitate effective team meetings.
## Differentiated Instruction

### Strategies to Accommodate Students Based on Individual Needs

New Jersey Core Curriculum Content Standards (NJCCCS):

1.1.12.C.1

**Content Statement:** Dance and the arts play a significant role in human history and culture.

**Cumulative Progress Indicator:** Analyze examples of ballet’s influence on dance history.

1.1.12.C.2

**Content Statement:** Ballet performance has physical, emotional, and social dimensions that can be communicated through the application of proper ballet technique.

**Cumulative Progress Indicator:** Deconstruct ballet sequences to identify how the physical, emotional, and social dimensions of performance are communicated through the application of ballet techniques.

1.1.12.C.3

**Content Statement:** Ballet is an art, but it is also a science requiring knowledge of proper class procedures, alignment, musicality, and attire.

**Cumulative Progress Indicator:** Apply the basic physical and chemical properties (e.g., light, electricity, color, paint, scenic construction, costumes, makeup, and audio components) inherent in technical theatre to safely implement theatre design.

1.2.12.A.3

**Content Statement:** Access to the arts has a positive influence on the quality of an individual’s lifelong learning, personal expression, and contributions to community and global citizenship.

**Cumulative Progress Indicator:** Justify the impact of innovations in the arts (e.g., the availability of music online) on societal norms and habits of mind in various historical eras.

1.3.12.C.1
Content Statement: Effective performances require informed, supported, and sustained choices by dancers, choreographers, and directors. Dance genres are created by combining complex choreographic structures, technical elements, and thematic intent.

Cumulative Progress Indicator: Create works that include well-structured choreographic devices, clear thematic intent, original movements, and technical dance elements appropriate to a variety of dance genres.

1.3.12.C.2

Content Statement: Presentation of believable, multidimensional performances requires application of specific physical choices, sustained commitment to the movement, and clearly motivated actions.

Cumulative Progress Indicator: Create and evaluate performances by citing evidence of specific physical choices, sustained commitment to the movement, and clearly motivated actions.

1.4.5.A.1

Content Statement: Works of art may be organized according to their functions and artistic purposes (e.g., genres, mediums, messages, themes).

Cumulative Progress Indicator: Employ basic, discipline-specific arts terminology to categorize works of dance, music, theatre, and visual art according to established classifications.

1.4.5.A.2

Content Statement: Formalism in dance, music, theatre, and visual art varies according to personal, cultural, and historical contexts.

Cumulative Progress Indicator: Make informed aesthetic responses to artworks based on structural arrangement and personal, cultural, and historical points of view.

1.4.5.A.3

Content Statement: Criteria for determining the aesthetic merits of artwork vary according to context. Understanding the relationship between compositional design and genre provides the foundation for making value judgments about the arts.
**Cumulative Progress Indicator:** Demonstrate how art communicates ideas about personal and social values and is inspired by an individual’s imagination and frame of reference (e.g., personal, social, political, historical context).

1.4.5.B.1

**Content Statement:** Identifying criteria for evaluating performances results in deeper understanding of art and art-making.

**Cumulative Progress Indicator:** Assess the application of the elements of art and principles of design in dance, music, theatre, and visual artworks using observable, objective criteria.

1.4.5.B.2

**Content Statement:** Decoding simple contextual clues requires evaluation mechanisms, such as rubrics, to sort fact from opinion.

**Cumulative Progress Indicator:** Use evaluative tools, such as rubrics, for self-assessment and to appraise the objectivity of critiques by peers.

1.4.5.B.3

**Content Statement:** While there is shared vocabulary among the four arts disciplines of dance, music, theatre, and visual art, each also has its own discipline-specific arts terminology.

**Cumulative Progress Indicator:** Use discipline-specific arts terminology to evaluate the strengths and weaknesses of works of dance, music, theatre, and visual art.

1.4.5.B.4

**Content Statement:** Levels of proficiency can be assessed through analyses of how artists apply the elements of art and principles of design.

**Cumulative Progress Indicator:** Define technical proficiency, using the elements of the arts and principles of design.

1.4.5.B.5
Content Statement: Artists and audiences can and do disagree about the relative merits of artwork. When assessing works of dance, music, theatre and visual art, it is important to consider the context for the creation and performance of the work (e.g., Who was the creator? What purpose does the artwork serve? Who is the intended audience?).

Cumulative Progress Indicator: Distinguish ways in which individuals may disagree about the relative merits and effectiveness of artistic choices in the creation and performance of works of dance, music, theatre, and visual art
Interdisciplinary Connections

❖ History: Students study historical and influential ballet companies/dancers.
❖ Language Arts: Students write, interpret, and analyze ballet terminology.
❖ Visual Art: Students in collaboration with visual arts students, create dance images reflecting proper alignment.
❖ Math: Students counts sequences, music, and rhythmic patterns.
❖ Music: Students perform to classical music.
| Grade: 9th | Unit: 4 (8 Weeks) | Topic: Dance History II  
Description: Students will deeper explore dance historians and their influence on choreography. |
