

# ENGLISH LANGUAGE ARTS

## Grade 1: Unit 3

### Literary/Informational Reading and Opinion/Informational Writing

## *Course Description (Workshop Model)*

First grade English consists of reading, writing, speaking, listening and media literacy skills. During the block of literacy instruction students will learn to use reading strategies that help them become effective readers. Some of these strategies include questioning the author, inferring, visualizing, synthesizing and learning multiple strategies to help students learn to monitor their reading comprehension. The 1st grade curriculum is designed around universal themes and essential questions to promote literary analysis of reading, incorporation of textual evidence when writing and to encourage students to engage in deep meaningful discussions to socialize intelligence. The students are exposed to multiple genres of reading and writing such as fiction, non-fiction, short stories, essays, novels, drama and poetry. Students will compose narrative, informational, expository, persuasive, and other pieces of writing required by the teacher. Writer’s workshop is employed so that all students can improve their skills and voices as writers. The teachers will instruct students using the workshop model philosophy with the use of the “I DO, WE DO, YOU DO” method of instruction. Other skills such as grammar, vocabulary, listening and speaking are infused in the exploration of effective reading and writing. The 1st grade English Language Arts course and instruction will lay the foundation for successful achievement in English. The New Jersey Student Learning Standards are designed to provide a clear understanding of what students are expected to learn, so teachers and parents know what they need to do to help them. The standards are designed to be robust and relevant to the real world, reflecting the knowledge and skills that our young learners need for success in college and careers. It is our goal to establish a community of learners to become productive citizens in society striving towards pursuing their life-long goals. Through an enriching and rigorous education and with on-going support our students will be fully prepared for the future to compete successfully in the global economy.

## *Rationale*

In order to plan instruction inclusive of all students in the English Language Arts classroom, a comprehensive curriculum has been developed. The standards covered during each instructional unit of the Language Arts curriculum are reflective of the New Jersey Student Learning Standards outlined in the New Jersey Curriculum Framework. Each standard in reading and writing has been unpacked to illustrate the critical knowledge and skills students need in order to master the standard. Essential questions and sample activities are included to utilize when teaching such standard. Given the diverse population of learners in the classrooms, the Essential Elements related to the standards from the Dynamic Learning Maps have been included for the special education students as a means to inform teachers of the learning expectations and outcomes for those students, based on their individual needs.

## *ESL Framework*

This ESL framework was designed to be used by bilingual, dual language, ESL and general education teachers. Bilingual and dual language programs use the home language and a second language for instruction. ESL teachers and general education or bilingual teachers may use this document to collaborate on unit and lesson planning to decide who will address certain components of the New Jersey Student Learning Standard (NJSLS) and language objective. ESL teachers may use the appropriate leveled language objective to build lessons for ELLs which reflects what is covered in the general education program. In this way, whether it is a pull-out or push-in model, all teachers are working on the same Student Learning Standard. The design of language objectives are based on the alignment of the World-Class Instructional Design Assessment (WIDA) Consortium's English Language Development (ELD) standards with the New Jersey Student Learning Standards. WIDA's ELD standards advance academic language development across content areas ultimately leading to academic achievement for English learners. As English learners are progressing through the six developmental linguistic stages, this framework will assist all teachers who work with English learners to appropriately identify the language needed to meet the requirements of the content standard. At the same time, the language objectives recognize the cognitive demand required to complete educational tasks. Even though listening and reading (receptive) skills differ from speaking and writing (expressive) skills across proficiency levels the cognitive function should not be diminished. For example, an Entering Level One student only has the linguistic ability to respond in single words in English with significant support from their home language. However, they could complete a Venn diagram with single words which demonstrates that they understand how the elements compare and contrast with each other or they could respond with the support of their home language (L1) with assistance from a teacher, para-professional, peer or a technology program.

### Standards

8.1.2.A.1, 8.1.2.A.2, 8.1.2.A.3, 8.1.2.A.5, 8.1.2.B.1, 8.1.2.C.1, 8.1.2.D.1, 8.1.2.E.1, 8.1.2.F.1

➤ **Technology Operations and Concepts**

- Identify the basic features of a computer and explain how to use them effectively.
- Use technology terms in daily practice.
- Discuss the common uses of computer applications and hardware and identify their advantages and disadvantages.
- Create a document with text using a word processing program.

➤ **Creativity and Innovation**

- Illustrate and communicate original ideas and stories using digital tools and media-rich resources.

➤ **Communication and Collaboration**

- Engage in a variety of developmentally appropriate learning activities with students in other classes, schools, or countries using electronic tools.

➤ **Digital Citizenship**

- Model legal and ethical behaviors when using both print and non-print information by citing resources.

➤ **Research and Information Literacy**

- Use digital tools and online resources to explore a problem or issue affecting children, and discuss possible solutions.

➤ **Critical Thinking, Problem Solving, and Decision-Making**

- Use mapping tools to plan and choose alternate routes to and from various locations.

## Computer Skills

### Basic Computer Skills

- Turn on the monitor
- Turn off the monitor
- Turn on the computer
- Turn off the computer
- Log on
- Log off
- Verbally identify computer parts:
  - Computer
  - Monitor
  - Screen
  - Keyboard
  - Mouse
  - Mouse Pad
- Double click to open programs

### Word Processing Skills

- Use caps lock and shift keys
- Use backspace and delete keys
- Use enter key
- Type first and last name
- Type simple sentence with capital and period
- Highlight text with mouse
- Change font, size, color of text

## Career Ready Practices

### Standards

CRP1, CRP2, CRP3, CRP4, CRP8, CRP9, CRP10, CRP12

- **CRP1. Act as a responsible and contributing citizen and employee**  
Career-ready individuals understand the obligations and responsibilities of being a member of a community, and they demonstrate this understanding every day through their interactions with others. They are conscientious of the impacts of their decisions on others and the environment around them. They think about the near-term and long-term consequences of their actions and seek to act in ways that contribute to the betterment of their teams, families, community and workplace. They are reliable and consistent in going beyond the minimum expectation and in participating in activities that serve the greater good.
- **CRP2. Apply appropriate academic and technical skills.**  
Career-ready individuals readily access and use the knowledge and skills acquired through experience and education to be more productive. They make connections between abstract concepts with real-world applications, and they make correct insights about when it is appropriate to apply the use of an academic skill in a workplace situation
- **CRP3. Attend to personal health and financial well-being.**  
Career-ready individuals understand the relationship between personal health, workplace performance and personal well-being; they act on that understanding to regularly practice healthy diet, exercise and mental health activities. Career-ready individuals also take regular action to contribute to their personal financial wellbeing, understanding that personal financial security provides the peace of mind required to contribute more fully to their own career success.
- **CRP4. Communicate clearly and effectively and with reason.**  
Career-ready individuals communicate thoughts, ideas, and action plans with clarity, whether using written, verbal, and/or visual methods. They communicate in the workplace with clarity and purpose to make maximum use of their own and others' time. They are excellent writers; they master conventions, word choice, and organization, and use effective tone and presentation skills to articulate ideas. They are skilled at interacting with others; they are active listeners and speak clearly and with purpose. Career-ready individuals think about the audience for their communication and prepare accordingly to ensure the desired outcome.

- **CRP8. Utilize critical thinking to make sense of problems and persevere in solving them.**  
Career-ready individuals readily recognize problems in the workplace, understand the nature of the problem, and devise effective plans to solve the problem. They are aware of problems when they occur and take action quickly to address the problem; they thoughtfully investigate the root cause of the problem prior to introducing solutions. They carefully consider the options to solve the problem. Once a solution is agreed upon, they follow through to ensure the problem is solved, whether through their own actions or the actions of others.
- **CRP9. Model integrity, ethical leadership and effective management.**  
Career-ready individuals consistently act in ways that align personal and community-held ideals and principles while employing strategies to positively influence others in the workplace. They have a clear understanding of integrity and act on this understanding in every decision. They use a variety of means to positively impact the directions and actions of a team or organization, and they apply insights into human behavior to change others' action, attitudes and/or beliefs. They recognize the near-term and long-term effects that management's actions and attitudes can have on productivity, morals and organizational culture.
- **CRP10. Plan education and career paths aligned to personal goals.**  
Career-ready individuals take personal ownership of their own education and career goals, and they regularly act on a plan to attain these goals. They understand their own career interests, preferences, goals, and requirements. They have perspective regarding the pathways available to them and the time, effort, experience and other requirements to pursue each, including a path of entrepreneurship. They recognize the value of each step in the education and experiential process, and they recognize that nearly all career paths require ongoing education and experience. They seek counselors, mentors, and other experts to assist in the planning and execution of career and personal goals.
- **CRP12. Work productively in teams while using cultural global competence.**  
Career-ready individuals positively contribute to every team, whether formal or informal. They apply an awareness of cultural difference to avoid barriers to productive and positive interaction. They find ways to increase the engagement and contribution of all team members. They plan and facilitate effective team meetings.

## Interdisciplinary Connections

### **Social Studies Connection:**

- Students are reading stories that focus on character education. The following website offers activities that address feelings and building positive outcomes.

[http://www.nicurriculum.org.uk/docs/key\\_stages\\_1\\_and\\_2/areas\\_of\\_learning/pdmu/livinglearningtogether/year3/yr3\\_unit2.pdf](http://www.nicurriculum.org.uk/docs/key_stages_1_and_2/areas_of_learning/pdmu/livinglearningtogether/year3/yr3_unit2.pdf)

### **Science & Social Studies Connection:**

- As a follow-up to “The Ugly Vegetables”, students can explore their senses and learn the names of different Chinese vegetables.

[http://www.gracelin.com/content.php?page=book\\_uglyveg&display=activities](http://www.gracelin.com/content.php?page=book_uglyveg&display=activities)

### **Math & Science Connection:**

- After reading “I Lost My Tooth in Africa”, make a class graph of lost teeth. Cut a large piece of paper in the shape of a tooth. Draw a bar for each month of the school year and divide it into squares. When students lose a tooth, have them color a square in the appropriate month to build the graph. At the end of each month, compare the number of teeth lost in each month by creating math problems, such as “How many more teeth did we lose in January than we lost in November?” or “In what month did we lose the most teeth?”

### **Social Studies & Art Connection:**

- After reading “Freckleface Strawberry” and discussing how we are all unique, have the students complete a self-portrait. As a border around the portrait have them draw pictures of things, skills, and interests that make them unique and special.

## Enrichment

### Accommodate Based on Students Individual Needs: Strategies

**The goal of Enrichment is to provide learners the opportunity to participate in extension activities that are differentiated and augment the district's curriculum. Teachers are to accommodate based on student individual needs.**

- Show a high degree of intellectual, creative and/or artistic ability and demonstrate this ability in multiple ways.
- Pose questions and exhibit sincere curiosity about principles and how things work.
- The ability to grasp concepts and make real world and cross-curricular connections.
- Generate theories and hypotheses and pursue methods of inquiry.
- Produce products that express insight, creativity, and excellence.
- Possess exceptional leadership skills.
- Evaluate vocabulary
- Elevate Text Complexity
- Inquiry based assignments and projects
- Independent student options
- Tiered/Multi-level activities
- Purposeful Learning Center
- Open-ended activities and projects
- Form and build on learning communities
- Providing pupils with experiences outside the 'regular' curriculum
- Altering the pace the student uses to cover regular curriculum in order to explore topics of interest in greater depth/breadth within their own grade level.
- A higher quality of work than the norm for the given age group.
- The promotion of a higher level of thinking and making connections.
- The inclusion of additional subject areas and/or activities (cross-curricular).
- Using supplementary materials in addition to the normal range of resources.

## Assessments

### Required District/State Assessments

- Star Early Literacy  
(Refer to the district assessment calendar for the appropriate testing window)
- NJDOE Unit Assessment  
(Students with CPL  $\geq 3.5$ )
- ESL Unit Level 1-2 Assessment  
(Students with CPL  $\leq 3.4$ )
- W-APT oral language proficiency test / ACCESS

### Suggested Formative/Summative Classroom Assessments

- Short constructed response questions
- Multiple Choice questions
- Quizzes
- Reader Response folders/notebooks
- Quick writes
- Writer's folders/notebooks
- Projects
- Portfolio
- Exit Slips
- Graphic Organizers
- Presentations (incorporating Web 2.0 tools)
- Homework
- Anecdotal Notes
- Student Conferencing

## District Resources

### Guided Reading

Guided reading is an instructional approach that involves a teacher working with a small group of students who demonstrate similar reading behaviors and can all read similar levels of texts.

#### Running Records

A running record is a tool used to assess students' reading behaviors and comprehension. A benchmark book and a running record form, with text from the book, are used for assessment. Analyzing students' performance will help teachers identify students' reading levels, check their fluency, find weaknesses in comprehension and plan effective guided reading instruction.

Running records will be administered to students as part of the ELA unit assessments. **Benchmark books, identified in the guided reading program, are to be utilized for assessment purposes only.**

## District Resources

### Guided Reading

A student **on-grade level** should display the following reading behaviors by the end of the school year.

#### **First Grade Level I**

- Read fluently, slowing down to figure out new words and then resume speed.
- Actively figures out new words, using a range of strategies.
- Reread to search for meaning.
- Flexibly use meaning, language syntax, and visual information to figure out new words and to monitor reading.
- Sustain problem solving and development of meaning through a longer text and over a two or three day period.
- Remember details to support meaning accumulated through the text.
