Social Studies Curriculum

Kindergarten
Course Description

The New Jersey Core Curriculum Content Standards serves the basis for the kindergarten Social Studies curriculum. As students progress through the five units of study, there are areas of focus that examine: culture through friends and family, geography through areas in which we live, citizenship/workers in the community, and economics by exploring where things are made in the community as a means of supplying basic needs and wants. Finally, an exploration of history will reinforce concepts of then verses now, through inventions along with the use of timelines.

Through the use of critical thinking, creative thinking, problem solving, metacognitive strategies, and meaningful discussions students will gather and reinforce the essential knowledge being presented throughout the school year.
