

Evaluate

How do I rate the reading material,
author's style, ideas, and my reading?

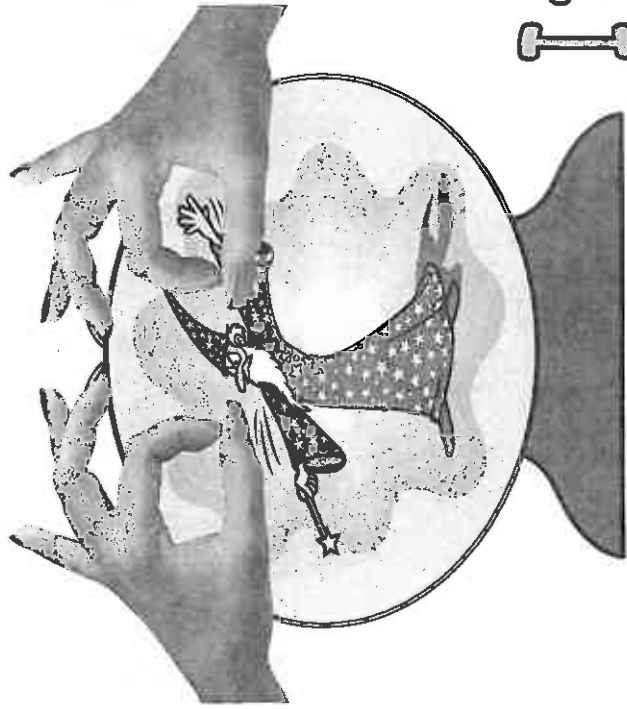

Monitor & Clarify

Does the reading make sense? What are the difficult words & ideas?

How can you fix up the problem? (reread, read on, look for parts you know)

Predict and Infer

I think this is about ...

I know this because the clues include ...

I inferred ... by using the clues ... and what I knew about ...

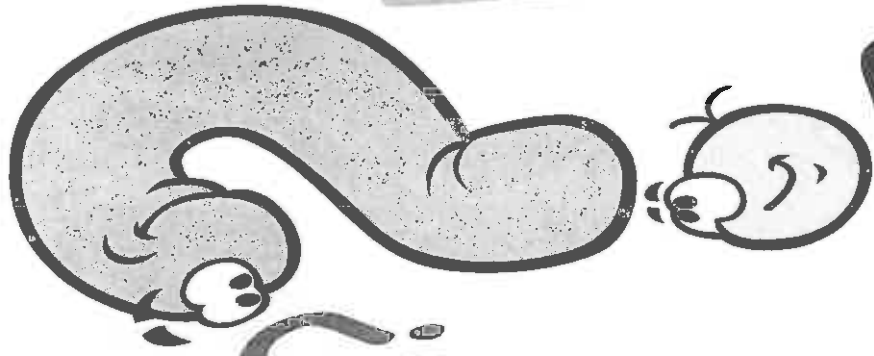

Tell the most important parts of the story.

The theme, moral, lesson is ...

I think ...

SUMMARIZE

Who?
Where?

What?

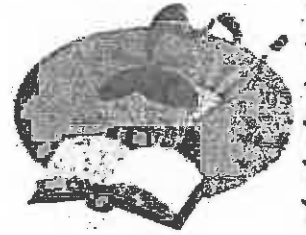

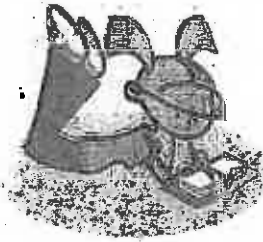

How?

Why?

When?

QUESTION

What would a teacher ask?
I would like to ask the author ...
I am wondering ...

I'm Smart and Getting Smarter

I must believe I have ability and talent,
I must work everyday to become independent.

I must read and write every night,
Memorize mathematics until I get it right.

To earn good grades I must do my best,
Complete homework, projects, assignments, and tests.

Review, rewrite, correct my mistakes,
A little care is all that it takes.

Write my full name, before I hand in my paper,
Practice, practice, now, I can always play later.

I know that learning is not always fun,
Most times it's work that gets things done.

For all my work, I must accept responsibility,
And give everyone respect and courtesy.

My report card is for all to see,
That I am successful, it's all up to me.
