

## Focusing Your Science Environment

*Now that you've been teaching NGSS for a year...*

*Come with your questions*

*Share your successes*

Aug 7

### **One Day Science Conference Rowan College of Education**

Explore the  
Role of Cross  
Cutting  
Concepts

Delve into real  
life phenomena..  
Where does  
it fit in your  
Classroom?

Have lunch with  
a National  
Geographic  
Author!

Try new  
technology for  
your classroom

Overnight - grad. apt.  
\$20-

## Presenters highlights ...

Dr. Malcolm Butler, author, National Geographic Science Contributor, Exploring Science Associate Professor of Science Education, University of Central Florida, will share his thoughts about "growing" more scientists by enhancing their science experiences from Kindergarten to college.

President Linda Smith will show how to use her MacGyver Science activities as phenomena to charge you classroom

Steve Pendergrast from Vorpal Robotics shows how open source robotics projects with 3D printed parts can be used in STEM classes.

## Have a great idea to share?

### Consider presenting!

Share your ideas with colleagues and peers! Presenters get a 10% discount on their registration fee!

Click on the link below to submit a proposal:
