### Script

This is Paterson Public Schools with an important message for all parents and guardians.

The district just completed the second day of distributing the new Student Home Instruction Packets at the 23 distribution sites throughout the district.

Tomorrow is the last day our 23 distribution sites will be open. Our sites will be open from 9 a.m. to 3 p.m. If you have not done so already, please find the packet distribution site for your child's school at the COVID-19 page on the district's website, and click on the tab that says, "Student Home Instruction Packet Distribution."

If you prefer to download your student home instruction packets, all of them are available on the home page of the district website. Simply log on to Paterson.k12.nj.us. The links are posted at the bottom center of the home page.

The packets are pdfs that can be downloaded and printed out.

If a smartphone is your family's only internet access, or if you do not have a printer, assignments can be copied, and student work can be completed by hand.

If you have any questions...about the packets are anything else regarding your child's education or student meals...call the Information Call Center. We are continuing to monitor calls seven days a week. We will respond to your questions as quickly as possible. English speakers should call 973-321-0609. For Spanish, call 973-321-0611. For Arabic, call 973-321- 0610. For Bengali, call 973-321- 0612.

All of us at Paterson Public Schools want to thank you all of for working with us. We are always committed to keeping your children fed and learning during this most unusual time. Thank you.
