

## **Progression Plan**

The Paterson Public School District is currently in the process of developing a Pupil Progression Plan that outlines the district policies and procedures for students to move from grade level to grade level and on to a successful graduation. This plan will include all learners and be inclusive of adult school students as well as Pre-K- 12 general education, special education students, and English Language Learners. Phase 1 of the plan will be presented to the community in February of 2012. It will include plans for Pre-K -2 students. As the National Common Core Standards are implemented the progression plan will follow suit including planned demonstrations of learning determined to be the benchmarks by which decisions of promotion or retention will be made. This process will assure quality educational outcomes for all students at every grade level and our children will have the skill sets required for 21<sup>st</sup> century workplace readiness.
