Higher Education for
Elementary School Students

2200.2 HIGHER EDUCATION FOR ELEMENTARY
SCHOOL STUDENTS

The Board of Education recognizes the importance of instilling the aspiration in students at an early age to attend a college/university. It is the expectation of this Board that a "College Week" be created at the elementary school level. The focus will be toward fifth and sixth grade students. Curriculum and activities during the week will be developed to enhance the student's knowledge and desire to attend college.

Adopted: 18 January 2012
