PERFORMANCE STANDARD #1: PREPARATION FOR INSTRUCTION

Professional educators prepare for quality instruction using a comprehensive approach.

Educators should know and be able to:

1a. Establish a culture of high expectations for learning and achievement.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING	PROFICIENT	EXEMPLARY		
	Expectations & Inclusion	<input type="checkbox"/> Teaching practices maintain the status quo and do not contribute to the building culture of high expectations for students.	<input type="checkbox"/> Acts in ways that demonstrate support of the building culture as one of inclusion and high expectations for most students.	<input type="checkbox"/> Teaching practices reinforce and strengthen the building culture as one of inclusion and high expectations for <i>all</i> students.	<input type="checkbox"/> Initiates and engages in problem-solving to advance the culture of the building as one of inclusion and high expectations for <i>all</i> students.		
	Culture of Excellence	<input type="checkbox"/> The culture in the classroom reinforces low level learning expectations and/or plans to meet even minimal student achievement goals are not clear.	<input type="checkbox"/> The classroom culture supports student improvement efforts suitable for most students and the teacher outlines the steps to meet student achievement goals.	<input type="checkbox"/> Establishes a culture in the classroom that challenges <i>all</i> students to continuously improve. Develops a plan to measure progress toward meeting challenging student achievement goals.	<input type="checkbox"/> Creates a culture of excellence in the classroom that focuses on stretching student achievement for <i>all</i> student groups. Differentiated plans to meet rigorous student achievement goals are developed and there is a system in place to continuously measure progress toward goal attainment.		
	Communicating Expectations	<input type="checkbox"/> There is little to no evidence that achievement expectations have been communicated to students in advance and/or achievement goals are low.	<input type="checkbox"/> Achievement expectations are not communicated well to students and/or the achievement goals are not high enough for some students.	<input type="checkbox"/> Achievement expectations are communicated in advance to students and the teacher provides example of how students can meet challenging achievement goals.	<input type="checkbox"/> Students are well prepared to articulate the steps they must take to reach rigorous achievement goals. It is evident that students know where they are in relation to the goals.		
1a. PERFORMANCE RATING	<input type="checkbox"/> Unsatisfactory	<input type="checkbox"/> Progressing I	<input type="checkbox"/> Progressing II	<input type="checkbox"/> Proficient I	<input type="checkbox"/> Proficient II	<input type="checkbox"/> Proficient III	<input type="checkbox"/> Exemplary
	1 - Ineffective	2 - Partially Effective		3 - Effective		4 - Highly Effective	

Summative Rating for Teachers The overall evaluation score combines the measures of teacher practice (rubric tally) and measures of student achievement (SGO/SGP)* earning a teacher one of four categories:

- Highly Effective (District Rating: Exemplary)
- Effective (District Rating: Proficient 1 & 2)
- Partially Effective (District Rating: Progressing 1 & 2)
- Ineffective (District Rating: Unsatisfactory).

1b. Use district adopted curriculum and content knowledge to design coherent lessons.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
	Curriculum and Assessment Alignment	<input type="checkbox"/> Lesson plans, when available, do not align with the district adopted curriculum and/or district assessments.	<input type="checkbox"/> Lesson plans are partially aligned to the district adopted curriculum and district assessments.		<input type="checkbox"/> Lesson plans closely align to the district adopted curriculum and district assessments.		<input type="checkbox"/> Lesson plans are based on a thorough understanding of how to “unpack” the district adopted curriculum and alignment of district assessments.	
	Content Knowledge	<input type="checkbox"/> Lesson plans reference outdated content knowledge. Information presented in class contains content errors.	<input type="checkbox"/> Lesson plans are based on a general understanding of content knowledge. While information presented in class is accurate, it may not reflect the most current knowledge of the discipline.		<input type="checkbox"/> Lessons plans are based on solid content knowledge. Information presented in class is accurate and current.		<input type="checkbox"/> Lesson plans are based on extensive content knowledge. Information presented in class is accurate, current and consistent with well-established concepts or sound practices of the discipline.	
	Lesson and/or Unit Design	<input type="checkbox"/> Lesson and unit planning is inadequate. Learning activities do not follow an organized progression and time allocations are unrealistic.	<input type="checkbox"/> Lesson plans or units are based on activities or resources, rather than focused on objectives. Progression and pacing of learning activities is sporadic, thus, time allocations are not always reasonable.		<input type="checkbox"/> Lesson or unit is planned in detail around clearly defined lesson objectives. Progression and pacing of the planned learning time (instructional strategies, student activities, use of resources, assessment tasks) is constant, with reasonable time allocations.		<input type="checkbox"/> Lesson or unit is precisely planned with explicit attention to detail leading to the demonstration of learning of the lesson objectives. The progression and pacing of planned learning time (instructional strategies, accessing materials, use of resources, student activities, and assessment tasks) is highly coherent.

- Effective (District Rating: Proficient 1 & 2)
- Partially Effective (District Rating: Progressing 1 & 2)
- Ineffective (District Rating: Unsatisfactory).

1c. Post aligned lesson objectives and plan for demonstrations of learning.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
	Lesson Objectives	<input type="checkbox"/> Lesson objectives were not communicated or the teacher simply states a list of activities.	<input type="checkbox"/> Lesson objectives reference grade level and/or course content. The objectives are not communicated or used to re-focus student’s attention to task.	<input type="checkbox"/> Lesson objectives align to a grade level or course essential content or skills. The lesson objective is communicated to effectively focus student attention at the beginning of the lesson.	<input type="checkbox"/> Lesson objectives align to cross disciplinary, grade-level or course essential content and skills. The objectives are communicated and serve to effectively focus student’s attention to learning targets throughout the lesson.			
	Student Understanding of Lesson Objectives	<input type="checkbox"/> Lesson objectives are not known to students and students do not know what they are expected to know and be able to do.	<input type="checkbox"/> Although students are aware of where to find the posted lesson objectives, they rely on teacher direction to focus them on what they are expected to know and be able to do.	<input type="checkbox"/> Lesson objectives are written in student-friendly language and students understand what they are expected to know and be able to do by the end of each lesson.	<input type="checkbox"/> Students have been well prepared to know that the lesson objective and the demonstration of learning provide direction for them in understanding exactly what they are expected to know and be able to do. This clarity promotes both autonomy and independence in accomplishment of student tasks.			
	Plans for DOL’s	<input type="checkbox"/> The Demonstration of Learning (DOL) is not developed in advance of instruction and/or not aligned with the lesson objective.	<input type="checkbox"/> The Demonstration of Learning (DOL) is minimally developed and/or may be loosely connected to the lesson objective.	<input type="checkbox"/> The Demonstration of Learning (DOL) is developed in advance of instruction and is aligned with the lesson objective.	<input type="checkbox"/> The Demonstrations of Learning (DOL) are designed in advance of instruction, tie closely with the lesson objective and provide multiple ways for students to demonstrate what they have learned.

PERFORMANCE STANDARD #2: USE OF DATA TO INFORM INSTRUCTION
Professional educators use data to inform instruction.

Educators should know and be able to:

2a. Focus on improving instruction using data.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
	Use of Data Management Tools	<input type="checkbox"/> Relies on someone else to provide student achievement data.	<input type="checkbox"/> Utilizes data management tools to view class achievement results.		<input type="checkbox"/> Uses various data management tools to track achievement results for individuals and groups of students.		<input type="checkbox"/> Regularly utilizes data management tools to retrieve data, organize data tables and create profiles on multiple measures of individual and group student achievement results.	
	Uses Data to Inform Instruction	<input type="checkbox"/> Even when data is provided, there is no evidence that the information is used to make instructional decisions.	<input type="checkbox"/> Attempts to make instructional decisions linked to analysis of data, although inferences about the data may not be complete.		<input type="checkbox"/> Makes accurate use of student achievement data when making instructional decisions.		<input type="checkbox"/> Accurately draws inferences from multiple data sources with which to make decisions about instruction for both whole group and individual student instruction.	
	Uses Disaggregated Data to Refine Instruction	<input type="checkbox"/> No data is considered with which to make changes in instruction.	<input type="checkbox"/> Examines data at the group level and uses these data when planning instruction.		<input type="checkbox"/> Examines data at the item level to find strengths and challenges for disaggregated groups of students which is appropriately used when planning instruction for whole and small groups.		<input type="checkbox"/> Systematically examines data at the item level to find strengths and challenges both for disaggregated groups and for individual students. Uses these data to accurately refine and modify instruction for whole groups, small groups and for specific individuals.

- Highly Effective (District Rating: Exemplary)
- Effective (District Rating: Proficient 1 & 2)
- Partially Effective (District Rating: Progressing 1 & 2)
- Ineffective (District Rating: Unsatisfactory).

2b. Use a variety of assessment methods when designing classroom assessments.

		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
		INDICATORS OF EFFECTIVENESS	Assessment Methods	<input type="checkbox"/> A single type of classroom assessment method is used that is not aligned with the evidence outcomes in the curriculum.	<input type="checkbox"/> Uses a limited number of classroom assessment methods (e.g., end of chapter or selected response tests) to assess all types of learning, which may be loosely aligned to the evidence outcomes in the curriculum.		<input type="checkbox"/> Appropriately matches classroom assessment methods (e.g., personal communication, selected response, constructed response, portfolios and performance tasks) with evidence outcomes in the curriculum.	
Classroom Assessments	<input type="checkbox"/> Classroom assessments are of poor quality.		<input type="checkbox"/> Uses prepared assessments with multiple choice responses as the main criteria for determining what students know.		<input type="checkbox"/> Creates a variety of classroom assessments that are a good measure student learning of the lesson or unit objectives. Assessment tasks provide varied options for students to demonstrate what they know and are able to do.		<input type="checkbox"/> Designs high-quality classroom assessments that accurately measure student learning of the lesson or unit objectives. Classroom assessments are a function of learning and not time. Assessment tasks may be embedded within the lesson and/or require a performance component for students to demonstrate what they know and are able to do.	
Common Assessments	<input type="checkbox"/> Does not implement or contribute to the development of common assessments.		<input type="checkbox"/> Cooperates with colleagues to implement common assessments. Compares results.		<input type="checkbox"/> Collaborates with colleagues to develop and implement common assessments. Engages in data-dialogues with colleagues to better understand how to use common assessment results to improve future instruction.		<input type="checkbox"/> Collaborates with colleagues to design and implement common assessments. Actively participates in data-dialogues with colleagues to evaluate the results from common assessment tasks and uses that information to re-teach or improve future lessons.

- Effective (District Rating: Proficient 1 & 2)
- Partially Effective (District Rating: Progressing 1 & 2)
- Ineffective (District Rating: Unsatisfactory).

2c. Involve students in assessing their own learning.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY		
	Scoring Criteria	<input type="checkbox"/> Students are not made aware of the assessment scoring criteria in advance of the lesson or unit.	<input type="checkbox"/> Students are aware of the scoring criteria for success too late in the process to allow adequate time for practice prior to taking assessments. Students may not be able to identify what they need to do to improve performance.		<input type="checkbox"/> Students are aware of the scoring criteria in advance of the lesson or unit. Based on the scoring criteria, students can identify what they need to do to improve performance.		<input type="checkbox"/> Students are very familiar with the scoring criteria provided in advance of the lesson or unit. Based on the scoring criteria, students are able to take responsibility for improvements to their work by focusing on what needs to be done to move to the next performance level.		
	Student Self-Monitoring	<input type="checkbox"/> The teacher does not have a system in place for tracking student achievement results and/or does not have a system set up for students to know how they are doing.	<input type="checkbox"/> The teacher takes responsibility for monitoring achievement results for students. Without active involvement in monitoring their own learning, students wait for the teacher to let them know their level of proficiency.		<input type="checkbox"/> The teacher has a system in place that students are familiar with and can self-asses appropriately. Teachers might use student self checklists so that students can document their own progress.		<input type="checkbox"/> The teacher has established a system that empowers students to become active partners in monitoring their own achievement results over time. The system includes an organized way for students to keep track of their level of proficiency against established achievement criteria.		
	Student Goal Setting	<input type="checkbox"/> Periodically provides anecdotal information to students about how they are doing.	<input type="checkbox"/> Provides students with information about how to understand achievement data. The teacher sets goals and monitors progress for students.		<input type="checkbox"/> Coaches students to understand how to interpret their own achievement data and to set focused, yet realistic goals for improving their performance. Students are supported in monitoring their progress.		<input type="checkbox"/> The teacher facilitates opportunities for students to analyze their own achievement data and supports students in setting specific, yet challenging goals to improve performance. Students create a plan to keep track of their progress over time.

PERFORMANCE STANDARD #3: DELIVERS QUALITY INSTRUCTION

Professional educators deliver quality instruction.

Educators should know and be able to:

3a. Instruct bell to bell.

INDICATORS OF EFFECTIVENESS	Engages Within 1 Minute	UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
	Transitions	<input type="checkbox"/> The teacher wastes too much time getting the attention of students to begin the lesson.	<input type="checkbox"/> The teacher loses instructional time engaging students in the learning after the bell rings.	<input type="checkbox"/> The teacher engages students within one minute of bell.	<input type="checkbox"/> Students are taught to be self-directed learners who engage in learning activities within one minute of the bell.			
	Purposeful Closure	<input type="checkbox"/> Transitions are chaotic, with much time lost between lesson segments.	<input type="checkbox"/> . Not all transitions from activity to activity/learning segments are purposeful and efficient which results in loss of instructional time. Students are confused at times and time is wasted. Equipment/materials are not prepared in advance to facilitate smooth transitions. Changes in grouping and organization are not efficient.	<input type="checkbox"/> Transitions from activity to activity/learning segments are purposeful and efficient. Students are not confused and time is not wasted. Equipment/materials are situated in ways to facilitate smooth transitions. Changes in grouping and organization are efficient.	<input type="checkbox"/> Transitions are designed as instructional opportunities with very little down-time. Students are able to self-progress from one learning segment to the next through well-established routines. Equipment/materials are situated in ways to facilitate progression.			
	<input type="checkbox"/> The lesson ends abruptly without purposeful closure.	<input type="checkbox"/> Lesson closure engages a limited number of students. Lesson closure is perfunctory in nature and does not effectively prepare all students for follow-up practice and/or to link the lesson to future learning.	<input type="checkbox"/> All students are engaged in purposeful closure to the lesson. Teachers use this time as an opportunity to guide reflection upon the learning accomplished, prepare students for follow-up practice and/or make connections to future learning.	<input type="checkbox"/> All students are engaged in purposeful closure to the lesson. As a result, students leave the classroom with a clear sense of accomplishment, are prepared for follow-up practice, can make connections with future learning and are better able to self-start the next lesson.

- Partially Effective (District Rating: Progressing 1 & 2)
- Ineffective (District Rating: Unsatisfactory).

3b. Use a variety of instructional strategies to focus instruction.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
		Selection of Instructional Strategies	<input type="checkbox"/> Lacking instructional focus, classroom time is often filled with activities that merely consume time.	<input type="checkbox"/> Selects instructional strategies specific to the subject matter to support student understanding.	<input type="checkbox"/> Selects multiple instructional strategies that serve to maintain focus and cognitively engage students.	<input type="checkbox"/> Strategically selects from an extensive repertoire of instructional strategies to design meaningful learning experiences that challenge all students to be cognitively engaged throughout lesson.		
Instructional Delivery	<input type="checkbox"/> Instructional delivery is poorly executed and significantly lacks learning experiences that engage students.	<input type="checkbox"/> Instructional delivery (activities, groupings of students, materials, and resources) engages some, but not all, of the students in the learning of content and skills. Some activities are developmentally appropriate and/or completed in a logical, progressive sequence. Some skills and concepts are explained and demonstrated at the developmental levels or broken down into learnable segments.	<input type="checkbox"/> All activities are developmentally appropriate and/or completed in a logical, progressive sequence. Skills and concepts are explained and demonstrated at the developmental levels of the students. Skills/concepts are broken down into learnable segments.	<input type="checkbox"/> Instructional delivery is well executed (activities, groupings of students, materials and resources) and effectively leads to student engagement in significant learning of content and skills.				
Directions and Expectations	<input type="checkbox"/> The teacher’s written and/or oral directions are confusing to the students, leaving them with questions about what they are supposed to do.	<input type="checkbox"/> The teacher’s written and/or oral directions are sometimes unclear, causing students to frequently ask the teacher to repeat the directions. Explanations of content do not prepare all students to engage in classroom experiences without further guidance.	<input type="checkbox"/> The teacher’s written and/or oral directions contain an appropriate level of detail and are clear to students. Explanations of content and pre-teaching important vocabulary effectively prepare students to engage in appropriate classroom experiences.	<input type="checkbox"/> The teacher’s written and/or oral directions anticipate possible student misunderstanding and plans accordingly. The teacher prepares students well for understanding content by pre-teaching important vocabulary, scaffolding of more complex ideas and insuring that classroom experiences are appropriate, yet challenging.

- Highly Effective (District Rating: Exemplary)
- Effective (District Rating: Proficient 1 & 2)
- Partially Effective (District Rating: Progressing 1 & 2)
- Ineffective (District Rating: Unsatisfactory).

3c. Engages students in learning.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
		Active Engagement	<input type="checkbox"/> Allows learning in the classroom to be passive rather than active. Lecture and/or busy work characterize the learning experiences.	<input type="checkbox"/> Although learning experiences are primarily teacher-directed, the teacher experiments with engagement strategies.		<input type="checkbox"/> Creates an expectation around engagement that learning is an active process. Facilitates learning experiences that promote collaboration.		<input type="checkbox"/> Creates an expectation that learning is active not passive. Facilitates challenging learning experiences that promote collaboration, independent learning and choice for all students.
Multiple Response Techniques	<input type="checkbox"/> Calls on one student at a time to respond.	<input type="checkbox"/> Frequently attributes the correct responses of a few students to the entire class.		<input type="checkbox"/> Solicits responses from all students (e.g. to write a response, to give a thumbs up or down, to ask questions, to hold up an answer on a dry erase desk board) to show they are understanding.		<input type="checkbox"/> Expects thoughtful responses from all students (e.g. to write a response, to give a thumbs up or down, to ask questions, to hold up an answer on a dry erase desk board) that show they are deepening their understanding of the lesson.		
Class Discussions	<input type="checkbox"/> The teacher monopolizes class discussions/activities.	<input type="checkbox"/> The teacher has limited success in engaging all students in class discussions/activities and/or a few students dominate discussions.		<input type="checkbox"/> The teacher successfully engages all students in class discussions and activities. Students are provided with opportunities to practice discussion skills.		<input type="checkbox"/> The teacher organizes the classroom and skillfully prepares students to effectively contribute to class discussions and activities. In addition, students are taught to take an active role to ensure that all voices have an opportunity to be heard in discussions/activities.

- Partially Effective (District Rating: Progressing 1 & 2)
- Ineffective (District Rating: Unsatisfactory).

3d. Continually checks for understanding.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
		Lesson Sequence and Pacing	<input type="checkbox"/> The teacher does not use checks for understanding during the lesson. Without checks for understanding no adjustments are made to the lesson sequence or pacing when students are confused.	<input type="checkbox"/> The teacher does not incorporate enough checks for understanding during the lesson. However, the teacher may adjust future lessons based on student response data and/or observation at the conclusion of the lesson.		<input type="checkbox"/> The teacher uses a variety of checks for understanding during the lesson. Based on classroom response data and/or observation the teacher adjusts the lesson sequence and pacing during the lesson.		<input type="checkbox"/> The teacher plans for a variety of checks for understanding during strategic points in the lesson. The teacher quickly adjusts the lesson sequence and pacing based on student response data and/or observation to support individual student success.
Questioning Strategies	<input type="checkbox"/> Teacher questioning is of poor quality presenting low cognitive challenge to students.	<input type="checkbox"/> Only some teacher questioning strategies invite a thoughtful response.		<input type="checkbox"/> Teacher questioning strategies require students to extend their thinking and elaborate their answers.		<input type="checkbox"/> Strategic teacher questioning strategies require students to think critically and defend or justify their answers. Thoughtful questions serve to deepen the discussion.		
Implementation of DOL's	<input type="checkbox"/> There is no Demonstration of Learning (DOL) or the lesson simply ends abruptly. In physical education classes teachers are not able to visually observe students complete their DOL and no adjustments are made.	<input type="checkbox"/> The Demonstration of Learning (DOL) is cumbersome, and difficult to gain quick information from. In physical education classes teachers are not able to visually observe all students complete their DOL and some adjustments are made.		<input type="checkbox"/> The Demonstration of Learning (DOL) is completed in a short period of time and is easy to understand. In physical education classes teachers are able to visually observe students complete their DOL and adjust accordingly. The Demonstration of Learning is an ongoing process (due to facilities and student enrollment).		<input type="checkbox"/> The Demonstration of Learning (DOL) is completed in five to ten minutes and is quickly reviewed by the teacher to assess learning. The DOL is easy to understand and varies from day to day. The Demonstration of Learning can be an ongoing process (due to facilities and student enrollment).

3e. Deliver rigorous and relevant content.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
		Rigorous and Relevant Curriculum	<input type="checkbox"/> Lessons and/or units are too easy for the majority of students and/or class time is spent on busy work with low intellectual or physical engagement.	<input type="checkbox"/> Lessons and/or units spend the majority of class time on knowledge level tasks that may require only some intellectual and/or physical engagement.		<input type="checkbox"/> Lessons and/or units are designed to provide students with rigorous curriculum that is intellectually and/or physically engaging.		<input type="checkbox"/> Lessons and/or units are designed that maximize productive time focused on high levels of rigor and relevance that challenge students to be intellectually and/or physically engaged throughout.
Prior Knowledge and Making Connections	<input type="checkbox"/> Presentation of new content is either inappropriate for the grade level, poorly presented and/or does not connect with prior learning and knowledge or skills. The teacher does not explain or leaves out information that would help students understand the relevancy of the concepts to their lives.	<input type="checkbox"/> Assumes that students are able to make the link to prior learning and knowledge when presenting new content or skills. The teacher spends very little time helping students understand the relevance of concepts to their lives.		<input type="checkbox"/> Presentation of new content is grade level appropriate and students are able to connect prior knowledge and experiences with the new material being introduced. The teacher uses current examples and prerequisite knowledge known to students to illustrate concepts or demonstrate skills and make the content relevant for student's lives.		<input type="checkbox"/> Presentation of new content is challenging, appropriate and links well with students' prior knowledge and experiences or skills. The teacher adeptly uses prerequisite knowledge known to students to illustrate concepts, demonstrate skills and adeptly bridges connections regarding the relevancy of the learning to student's lives.		
Relevance for Students	<input type="checkbox"/> Presentation of lesson is not interesting. Students are bored and uninvolved in learning.	<input type="checkbox"/> Whether or not they find it interesting, the students follow the teacher's directions and do what is asked of them.		<input type="checkbox"/> Students are interested and engaged in the lesson and can state how the subject being studied is relevant to their own learning and can be transferred within physical education/ health units.		<input type="checkbox"/> Students find the lesson engaging and can explain how the subject being studied can be transferred within physical education/ health units or is relevant to other disciplines

3g. Provides feedback about student proficiency.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
		Timely Feedback	<input type="checkbox"/> When feedback is given, it is too little, too late.	<input type="checkbox"/> Feedback is provided at the end of units of study. This level of feedback generally does not provide information for students to make error corrections soon enough to improve performance for the next assigned task.		<input type="checkbox"/> Feedback on assignments is provided in a timely manner.. Teacher analyzes each student’s performance to provide appropriate corrective feedback or reinforcement. Students are provided information on their performance in a verbal, visual or tactile way to improve their skill.		<input type="checkbox"/> Feedback on assignments, assessments and major activities is timely and reinforces what students did well. Further, the feedback outlines specific strategies in a verbal, visual or tactile way to improve their skill.
Homework	<input type="checkbox"/> Homework expectations are not clear to students. Homework assigned as busywork and/or may be confusing to students. There is not a system in place for assigning and managing homework.	<input type="checkbox"/> Homework is planned as part of the lesson, although there is not always a clear connection between the concepts and skills taught in the lesson and the homework. Student may have difficulty understanding what is expected of them. Assigning and managing homework is time consuming.		<input type="checkbox"/> Homework is designed to reinforce and practice key concepts and skills from the lesson. Students know the expectations for homework completion and how it will be evaluated. Students know the system that is in place to assign and manage homework.		<input type="checkbox"/> Homework is designed as an extension of the lesson to reinforce and expand the most important learning concepts and skills. The scoring criteria for successful completion of homework are provided in advance. An efficient system is in place for assigning and managing homework with shared responsibility by the teacher and students.		
Grading and Reporting Student Learning	<input type="checkbox"/> Grading is inconsistent, <i>may</i> be subjective, and students generally do not know what their cumulative grade will be until the end of the quarter or semester. Grading of assignments is incomplete.	<input type="checkbox"/> Grading and reporting student learning is completed at the end of the unit. . Teachers can produce records (e.g., skills tests, fitness assessments, checklists, etc.) which document student performance at the end of the uni. Grades and progress reports are completed per the school schedule.		<input type="checkbox"/> The teacher has designed a grading and reporting system for documenting student learning. This is shared with students and parents in advance. Grades and progress reports are completed and updated regularly to allow students to check their own progress. Teachers can produce current records (e.g., skills tests, fitness assessments, checklists, etc.) which document student performance.		<input type="checkbox"/> The teacher is proactive in establishing and clearly communicating the system used for grading and reporting student learning. Teachers can produce and students can access current records (e.g., skills tests, fitness assessments, checklists, etc.) . Grades and progress reports are completed and updated regularly to allow students to monitor their own proficiency.

PERFORMANCE STANDARD #5: CLASSROOM ENVIRONMENT

Professional educators establish a culture that is conducive to student well-being and learning.

Educators should know and be able to:

5a. Contribute to a safe and orderly learning environment.

INDICATORS OF EFFECTIVENESS	Rules and Regulations	UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY		
		<input type="checkbox"/> Disregards, defies, or ignores school behavioral rules and regulations. Student safety is compromised by teacher's lack of compliance with emergency procedures. Is non-compliant and/or negligent with regard to supervision of students inside and outside the classroom setting.	<input type="checkbox"/> Does not consistently reinforce school behavioral rules and regulations and/or is not clear about established procedures in emergency situations. Students have a minimal understanding of behavior expectations and consequences. Rules are not posted in the gymnasium and there are many instances of off-task or disruptive behavior.		<input type="checkbox"/> Complies with school behavioral rules and regulations and established emergency procedures to insure student safety needs are met. Students understand behavior expectations and consequences. Rules are posted in the gymnasium and teacher uses positive reinforcement to acknowledge appropriate behavior and performance. There are few, if any instances of off-task or disruptive behavior.		<input type="checkbox"/> Implements and continually reinforces all school behavioral rules and regulations and established emergency procedures to insure student safety needs are consistently met. Is fully engaged at all times with active supervision of students both inside and outside the classroom setting. There is evidence of students as active partners in assuming responsibility for enforcement of school rules and there are no instances of off-task or disruptive behavior.		
	Safe & Organized Environment	<input type="checkbox"/> The classroom arrangement is either unsafe or the use of space impedes learning.	<input type="checkbox"/> Creates an environment that is safe, but has a "neutral" feel to it. Limited attention has been given to use of space. The classroom arrangement, while not causing significant management problems, does not contribute to varied learning possibilities. Space has some clutter, unused equipment, and other safety hazards. Activities are organized and structured, but still contain a minimal chance of injury from collision with people or objects, moving equipment, or immovable obstacles. There is insufficient space for the activities selected.		<input type="checkbox"/> The classroom environment is safe, organized and designed to support a student focus on learning purposes. Makes efficient use of available space. Space is free from clutter, unused equipment, and other safety hazards. Activities are organized and structured to minimize the chance of injury from collision with people or objects, moving equipment, or immovable obstacles. There is adequate space for the activities selected.		<input type="checkbox"/> Establishes a comfortable, safe, and inviting learning environment that is organized to facilitate a focus on learning. Space is free from clutter, unused equipment, and other safety hazards. Activities are organized and structured to eliminate the chance of injury from collision with people or objects, moving equipment, or immovable obstacles. Maximizes efficient use of all available space to support a variety of instructional purposes.		
	Physical Resources	<input type="checkbox"/> Teacher does not make appropriate decisions regarding selection and arrangement of instructional area. Instructional area is not prepared for the lesson. There is minimal safe space to facilitate the learning of the skill or concept. Activities are structured and oriented in a way for minimal participation and success. Equipment is not ready and accessible, and equipment not in use is on the sidelines.	<input type="checkbox"/> Teacher minimally makes appropriate decisions regarding selection and arrangement of instructional area. 5b. Use effective classroom management procedures.

INDICATORS OF EFFECTIVENESS		ROUTINES AND PROCEDURES	PROGRESSING	PROFICIENT	EXEMPLARY			
		ROUTINES AND PROCEDURES	<input type="checkbox"/> There are no established classroom routines and /or procedures are not reinforced. Students do not know classroom procedures resulting in confusion and a significant loss of wasted learning time characterized by student time off-task. Routines for orderly gym entry, distribution and collection of equipment, groupings and locker room procedures are not followed.	<input type="checkbox"/> Procedures to manage classroom routines are outlined, although they are inconsistently followed by the students and/or teacher. The teacher spends too much instructional time redirecting student behavior. Routines for orderly gym entry, distribution and collection of equipment, groupings and locker room procedures are inconsistently followed.	<input type="checkbox"/> Procedures to manage routine tasks and materials are in place resulting in efficient practices that do not interfere with learning time. Routines and responsibilities for management of tasks is known to students and accomplished efficiently and in ways that do not contribute to “down time.” Routines are also established for orderly gym entry, distribution and collection of equipment, groupings and locker room procedures.	<input type="checkbox"/> Procedures to facilitate student management for carrying out routine tasks and materials management are in place resulting in highly efficient practices that maximize time for learning including orderly gym entry, distribution and collection of equipment, groupings and locker room procedures. Procedures and routines are efficiently managed by self-directed learners.		
LEARNING EXPERIENCES	<input type="checkbox"/> Learning experiences and activities are disorganized and poorly managed.	<input type="checkbox"/> Learning experiences and activities are primarily managed by the teacher resulting in loss of learning time for some students who must wait for teacher directions. There are some inefficiencies in managing routine tasks that take time away from learning.	<input type="checkbox"/> Learning experiences and activities are routinely organized by the teacher in such a way that students can maximize time for learning. Instructional support materials such as word walls, pictures of people performing skills, charts, instruction packets and other media resources technology are utilized to enhance the lesson.	<input type="checkbox"/> Learning experiences and activities are highly organized and efficiently facilitated by both the teacher and students who each assume responsibility for maximizing time for learning.				
INDEPENDENT AND COOPERATIVE WORK	<input type="checkbox"/> Procedures for independent and/or cooperative group work are not established and/or not reinforced - resulting in considerable “down-time” where students are not productively engaged in learning.	<input type="checkbox"/> In the absence of known procedures, students spend time waiting for teacher re-direction in order to engage in independent work or cooperative group work. There are no procedures for grouping and students waste time waiting for direction or re-direction in order to work individually, in partners, in small groups or in larger groups. In skill learning, the grouping allows for minimal practice trials.	<input type="checkbox"/> Grouping facilitates maximum participation and maximum success. Students work individually, in partners, in small groups or in larger groups appropriate to the learning. In skill learning, the grouping allows for maximum practice trials. Students are pre-grouped by the teacher.	<input type="checkbox"/> Students consistently assume responsibility for following procedures that maximize participation and maximum success. Students work individually, in partners, in small groups or in larger groups appropriate to the learning. In skill learning, the grouping allows for maximum practice trials. Students are pre-grouped by the teacher. Students hold themselves accountable for contributing productively to their own learning.

5c. Effectively manage student behavior.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY	
		Discipline Plan	<input type="checkbox"/> Has not established classroom/gymnasium rules and/or procedures. Standards of conduct are unclear to students. The teacher attempts to control the classroom/gymnasium through threats of referral or by increasing vocal intensity. The teacher spends an inordinate amount of time dealing with behavior issues.	<input type="checkbox"/> Most students seem to understand the classroom/gymnasium rules and standards of conduct. Consequences for inappropriate behavior are inconsistently applied. The teacher is generally aware of student behavior, but may miss the misbehavior of some students.	<input type="checkbox"/> Explicit classroom/gymnasium rules and standards of conduct are clear to all students. Consequences for inappropriate behavior are reasonable and consistently applied. The teacher demonstrates awareness of events in the classroom/gymnasium and often anticipates and prevents potential problems.		<input type="checkbox"/> Students contributed to designing the classroom/gymnasium rules and standards of conduct upheld by all members of the classroom. Consequences for inappropriate behavior are reasonable, clear, and consistently applied. Monitoring by the teacher of events in the classroom/gymnasium is subtle and proactive.	
Re-direction Techniques	<input type="checkbox"/> Lessons have numerous disruptions. Teacher is not aware of or effectively responds to any situations in class.	<input type="checkbox"/> The teacher's repertoire of techniques to manage student behavior is limited; resulting in too much time spent redirecting student misbehavior. Teacher is aware of some situations in class and responds to few.	<input type="checkbox"/> While students also monitor their own behavior, the teacher is skilled at using a variety of techniques to re-direct students back to the task of learning. Teacher is aware of and effectively responds to most situations in class.		<input type="checkbox"/> Students monitor their own and their peers' behavior, correcting one another respectfully. The focus of discipline is to maximize student learning time and students show a respect for the rights of other students to learn. Teacher is aware of and effectively responds to all situations in class.			
Circulation During Instruction	<input type="checkbox"/> Remains basically stationary and is often inaccessible to many students.	<input type="checkbox"/> Utilizes proximity to students during learning activities to prevent disruptive behavior.	<input type="checkbox"/> Circulates during instruction and learning activities to support engagement, interact with students and monitor behavior and learning. The teacher actively monitors students across the gymnasium/field/teaching area to enforce and reinforce behavior and skill expectations.		<input type="checkbox"/> Circulates during instruction and learning activities to interact with students, prompt student thinking and assess progress. Exhibits a heightened awareness of the learning that occurs in all areas of the classroom.

5d. Foster collaboration and self-regulation in students.

INDICATORS OF EFFECTIVENESS		UNSATISFACTORY	PROGRESSING		PROFICIENT		EXEMPLARY			
	Fosters Self-Regulation in Students	<input type="checkbox"/> Uses a one dimensional approach to directing student learning. Students are passive learners.	<input type="checkbox"/> Primary responsibility for the students staying on task and focused on learning rests with the teacher. The emphasis is more on the “teacher as worker.”	<input type="checkbox"/> Fosters self-regulation in students so that they are able to take responsibility for staying on task and focusing on improving their performance. There is an emphasis on the “student as learner.”		<input type="checkbox"/> Develops self-regulating students who acknowledge they are being challenged academically and they assume responsibility for staying on task and focused on moving from one performance level to the next. There is a strong emphasis on the “student as producer.”				
	Collaborative Decision Making	<input type="checkbox"/> Does not promote student collaboration or decision making.	<input type="checkbox"/> Uses a few strategies to engage students in collaborative activities that promote cooperation of students within the class.		<input type="checkbox"/> Engages all students in collaborative activities that promote communication, decision making and group responsibility to the classroom community.		<input type="checkbox"/> Facilitates the conditions under which students demonstrate strategies for collaboratively solving problems and engaging in decision making in the classroom and/or school community.			
	Student Leadership	<input type="checkbox"/> There is no evidence that student leadership opportunities are fostered.	<input type="checkbox"/> The teacher creates opportunities for individual students to have classroom responsibilities.		<input type="checkbox"/> Students are given opportunities for leadership in the classroom.		<input type="checkbox"/> There is strong evidence that the teacher fosters student leadership within the classroom and/or the school community.
